

TPCI

TelePresence Controller Interface

- Engage your TelePresence systems from Unclassified through TS in each installation, significantly increasing your return on investment
- Interoperates with all TelePresence systems that use codecs that have been JITC and/or JWICS approved. Provides maximum flexibility between manufacturers, ensuring that enterprise assets are protected.
- Operates with systems with 1 to 4 codecs.
Covers the full range of current generation TelePresence systems, no matter what the configuration.
